

Reduce your energy use on Peak Savings Days and you can earn a credit off your bill.

We created the Peak Energy Savings Credit so you can earn savings by taking control and reducing your electricity use during those few days in summer when energy use tends to be highest. We call them Peak Savings Days.

Saving money this summer is as easy as 1-2-3.

- 1 NO ENROLLMENT NECESSARY. When a Peak Savings Day is announced you'll automatically receive a phone call giving you the hours for reducing your energy use. You can also choose to be notified by email or text.
- 2 TAKE ACTION. Reduce your energy use below your baseline during the specific hours of the Peak Savings Day to earn a credit off your bill.
- 3 VIEW YOUR CREDIT. You'll see your credit on your next bill or online through My Account at pepco.com.

The less energy you use, the more money you can save.

◀ EVERYTHING YOU NEED TO KNOW IS INSIDE

Saving is easy with energy wise rewards Maryland

Energy Wise Rewards™ from Pepco is the automatic way for customers with central air conditioning to save money and energy. Sign up and we'll install a web-programmable thermostat (a \$150 value) or outdoor switch at no charge. Then, when demand for energy is highest, generally June through September, we'll automatically cycle off and on your central air conditioner or heat pump. Your air conditioner fan stays on so you'll stay comfortable. Your monthly bill will show the guaranteed Energy Wise Rewards credit plus the amount from the Peak Energy Savings Credit that exceeds the Energy Wise Rewards credit.

Get an Installation Credit of \$40-\$80 off your bill after we install your device and Annual Reward Credits of up to \$80 over the summer.

Maximize your savings. Sign up for Energy Wise Rewards and participate in the Peak Energy Savings Credit.

To learn more or sign up for Energy Wise Rewards today, visit pepco.com/rewards or call 1-866-353-5798.

This program supports EmPOWER Maryland.

Introducing your

PEAK ENERGY SAVINGS CREDIT

It's the hands-on way for all customers in Maryland to save money and energy.

pepco.com

Lowering the demand for electricity helps to conserve resources that otherwise would have been used to generate energy.

PROMO CODE: PMDRDP1303

Peak Energy Savings Credit

Peak Savings Date	Peak Savings Period	Peak Savings Use (kWh)
6/18	6/18-6/19	40
6/19	6/19-6/20	45
6/20	6/20-6/21	40
6/21	6/21-6/22	40
6/22	6/22-6/23	60
6/23	6/23-6/24	60
6/24	6/24-6/25	40
6/25	6/25-6/26	50
6/26	6/26-6/27	40
6/27	6/27-6/28	40
6/28	6/28-6/29	35
6/29	6/29-6/30	40
6/30	6/30-7/1	45

YOU'VE GOT QUESTIONS. We've got the answers.

Q. What's the purpose of the Peak Energy Savings Credit program?

A. The program is designed to reduce energy use when demand for electricity is highest. We made it rewarding for customers like you by offering credits off your bill when you reduce your energy use at home during Peak Savings Days. It's also rewarding for the environment, because lowering the demand for energy helps to conserve resources.

Q. How do I earn a credit off my bill?

A. You'll receive a credit of \$1.25 off your bill for every kilowatt hour (kWh) you reduce your energy use below your baseline on Peak Savings Days.

Q. How much money can I save?

A. The more you reduce your energy use below your baseline during a Peak Savings Day, the bigger your credit. For example, if your baseline is 19 kWh and you reduce your usage to 12 kWh, you'll receive an \$8.75 credit.

Q. When do Peak Savings Days happen?

A. Think of those summer days when air conditioners are running everywhere and people are doing whatever they can to beat the heat. That usually results in higher (or "peak") demand for electricity. You will have several opportunities to save during Peak Savings Days depending on how many high-demand days we experience. Peak Savings Days generally occur on weekday afternoons June through September and usually last 4-6 hours.

Q. How can I reduce the amount of energy I use?

A. That's as simple as turning off lights, waiting to run your clothes dryer until later or setting the temperature on your air conditioner a few degrees higher.

Q. What if I don't reduce my energy use?

A. There is no downside to participation in this program. If you don't reduce your energy use during a Peak Savings Day there is no penalty of any kind. You have everything to gain and nothing to lose.

USE THESE TIPS TO SAVE MONEY AND ENERGY

Action	Estimated Savings
Avoid using your electric range to cook a meal	4.50 kWh
Wait before using your clothes dryer	4 kWh
Raise the setting of your air conditioner 1-3 degrees. Or, sign up for Energy Wise Rewards™. <i>See back of brochure.</i>	4 kWh
Wait before using your dishwasher	2 kWh
Wait before vacuuming your home	1.25 kWh

Q. HOW DO I FIND OUT ABOUT A PEAK SAVINGS DAY?

A. You will receive a call the day before a Peak Savings Day so you'll be ready to save. You can also choose to be notified by email or text, or change phone numbers, through My Account at pepco.com.

Q. Where can I view my bill credit?

A. You will see your credit on your next bill or online through My Account at pepco.com. Registration for My Account is not required to participate in this program.
